# Re-Fuel

tamasha

Re-Fuel sent four Muslim playwrights supported by directors from Tamasha's Developing Artists programme into four London secondary schools to each develop a new play set in a minicab office.

Students in each school worked with the writers and directors to populate the minicab office world with characters and storylines of their own creation. The writers gathered the young people's ideas and developed them into professional scripts, with bespoke parts for each young person to perform.

These events will bring all four schools together to perform these unique plays:

***The Lady*** by Asif Khan | Performed by pupils from **Swanlea School**

***Birthday Begum*** by Iman Qureshi | Performed by pupils from **Mulberry School for Girls**

***Entangled*** by Mahad Ali | Performed by pupils from **Regent High School**

***North West Side Story*** by Mediah Ahmed | Performed by pupils from **Hampstead School**
